Permission Form for Submitting IB Assessments

Updated 9/22/2022

Dear Parents/Guardians,

This year, your child will be completing a variety of assessments as part of their participation in the International Baccalaureate (IB) Program. These assessments include internal assessments, the Theory of Knowledge Exhibition, the Extended Essay, and other assessments. As such, your child will be registered for any IB exams that coincide with courses they will complete this year. This includes any IB courses taken in Senior year as well as one-year courses taken in Junior year.

As part of this registration process, IB Organization (IBO) requires information to set up the exams for your child. This information includes your child's name, date of birth, and IB. They may also gather demographic data such as ethnicity and free/reduced lunch status as part of a survey to ensure equitability on IB assessments (i.e. to ensure there is no discrimination among different testing groups).

Your child's internal assessment work will be collected by either by their teachers or IB Coordinator and submitted via the eCoursework system, the online submission tool utilized by the IB.

In order for the Winter Springs High School IB Program to use an online tool with student records or other information that could be personally identifiable, the school is required by Family Education Rights and Privacy Act (FERPA) to obtain your consent to disclose your student's information to the website's operator or other participants for the limited purpose of assessment.

You can find additional information about IB's submission policies at the links below:
